– Cycling Alternatives \* NEOlution 2014 –

3 Cycling Mobile Communities | 3 topics Permaculture / Solidarity Economy / Self-Organisation |  
3 weeks in July/August 2014

**Join us this summer to learn about different ways to meet existing social, environmental and economic issues and share your experiences. - far away from stuffy seminar rooms, but on your bike & in nature. Learn directly from the people who are putting other ways of living into practice and exchange with others that are trying to do the same.**

Join in for 3 weeks of learning, sharing and experiencing a mobile seminar on bikes. We will cycle in 3 mobile communities from three different places in Germany and Poland, learn and exchange about the topics of Permaculture, Solidarity Economy and Self-Organisation. We will ask ourselves and the world around us, how these approaches can help us to live lives less determined by external necessities and less characterized by alienation from our natural and social environment, ourselves and others.

**On the way we will:**

visit and learn from people and projects that put alternatives into practice \*\*\* take part in theoretical and practical workshops \*\*\* exchange and share knowledge and skills with each other and the people we meet \*\*\* practice self-organisation in the mobile village along the way \*\*\* Try to unlearn and challenge internalized habits, prejudices and ways of thinking which restrict us \*\*\* Take the initiative out of the rooms and onto the streets!

All 3 tours will join together in Czech Republic and meet for 5 days to create a space of exchange.

Each of the tours is looking for solutions to the phenomena of alienation in its own right:

"the **Permaculture tour** (28.07.2014 – 17.08.2014) wants to explore sustainable solutions for every day needs and personal wishes by focusing on the human-nature relation. Taking this journey of personal growth, we will learn practical skills to be able to contribute to a more social and ecological society."

the **Solidarity Economy** tour (30.07.2014 – 17.08.2014) wants to discover paths towards an economy whose first principle is to contribute to the well-being of people

the **Self-Organisation tour** (25.07.2014 – 17.08.2014) plans to visit groups of people who take control and organise themselves non-hierarchically to learn from them and get inspired.
